

MINDFUL'S DEVELOPMENTAL PSYCHIATRY COURSE

NOW ACCEPTING APPLICATIONS

The Developmental Psychiatry Course (DPC) is a one-year part-time course accepted as the benchmark for vocational training in fundamental skills for the child, adolescent and youth mental health workforce.

THEORY

Four terms of seminars, covering infants, parenting, toddlers, preschoolers, school-aged children, and adolescents and emerging adults, and the contextual factors that influence their development

PLUS

Supervised and supported experience observing and conducting assessments at a Victorian CAMHS/CYMHS

SKILLS

when + where

Theory

1:30pm - 3:30pm on Wednesdays during the Victorian school term, starting 2 February 2022 (39 sessions). Delivered via both live Zoom videoconference and face-to-face seminars where COVID19 restrictions permit

Skills

9:00am-12 noon on Wednesdays during *either* first or second semester. Facilitated by Victorian CAMHS/CYMHS services

who

Professionals working with children and adolescents with mental health difficulties, including social workers, occupational therapists, psychiatric nurses, speech pathologists, and psychologists, as well as those working in education, child and family services, and general medicine, or equivalent

why

The DPC gives professionals foundational knowledge in normal and abnormal development across childhood, adolescence, and youth. This knowledge, together with clinical experience in CAMHS/CYMHS offered in the DPC, builds skills and knowledge in working with children, adolescents, and youth with mental health difficulties, including assessment, diagnosis, formulation, and treatment planning

cost + prereq

Cost

Theory+skills: \$1950
Theory standalone: \$1450

Prerequisite

The Mindful Introductory Course (MIC) introduction to assessment in child, adolescent, and youth mental health: see www.mindful.org.au for more info on the MIC
