Section 7: Working with emotions & autism  
Section 8: Sensory triggering & calming  
Section 9: Goal setting in an autism affirming way

## DAY 3

Section 10: Working with Schools

## Who is the training for?

Mental health clinicians and other professionals working with **children and adolescents (primary/secondary school)** wanting to adapt their therapeutic practice to be more autism friendly.

## Who provides the training?

**Dr Deeta Kimber**, a Child and Adolescent Psychiatrist with extensive experience in regional and remote Australia, has developed a user-friendly program called Tracking Better®. She has adapted standard mental health assessments and clinical care into visual and modular steps, making it easier for children, families, and clinicians to understand and use. Dr Kimber shares her expertise and resources in supporting autistic children, young people, and their families, presenting simple and practical steps that clinicians can implement with their clients. The focus is on addressing common challenges faced in childhood, offering autism-friendly tools that are tailored to their specific needs.
