# ADOS-2 Coding & Reliability Master Class

Who is the training for?

Clinicians who have completed at least the ADOS-2 Introductory workshop wanting to check in on their reliability, e.g. Mental health clinicians, child & adolescent psychiatrists, paediatricians, speech pathologists, psychologists, occupational therapists.

Who provides the training?

Psychologist Deborah Sweeney has been training clinicians in the use of the ADI-R and ADOS-2 for many years throughout Asia and the Pacific region. Deborah was previously working in autism research at Monash University and now works in private practice providing consultation for complex presentations of autism spectrum disorder.

What does the training include?

This 4-hour workshop is an opportunity to check in on your reliability and discuss coding questions with a certified ADOS-2 trainer. Participants will:

- Watch two new video demonstrations of the ADOS-2 (Module 1 or 2 and Module 3 or 4)
- Code demonstrations independently
- Discuss coding results with the trainer and other participants

Participants will code a video before attending the workshop. The workshop commences with the discussion of codes of the pre-course video and a further video is watched and coded during the workshop.

Prerequisite Training

ADOS-2 Introductory

Please see our FAQs on our website for further information on prerequisites.
